

# A place of peace and harmony

A place of peace and harmony,  
Where we all can come alive.  
Where students, hand in hand,  
Work together to understand  
The world around them and places within,  
With a heart that is open to win.

No more fighting, no more stress,  
Just a community of love and unity,  
Where everyone feels safe and sound.  
And the spirit of peace bounces  
In every corner, in every room,  
In every country.  
And they had, that is true,  
A place of hope, a place of peace.

Let us work together to make our school  
A place where peace and understanding fills every heart,  
With smiles, with laughter,  
With happiness, unity,  
And a heart that is true and ready to win.

So when we come together,  
Love and unity,  
We will create a world of peace sent from above,  
Where everyone is equal,  
Where injustice does not exist,  
And a world where we can live in peace and harmony.

Reconciliation, meditation, dialogue,  
These are the keys to God.

Forgiveness, we must practice these.  
We should forgive one another,  
We should reconcile with one another,  
We should meditate with one another,  
We should have dialogue with one another  
In times of problems, in times of conflict.
